

100 TREASURES IN FLORENCE

2 – 26 JULY 2019

Join the History of Art Department for our four-week course celebrating one hundred Florentine masterpieces through visits to museums and monuments across the city and lectures in the Harold Acton Library overlooking the Arno River. Beginning with Florence's prized collections of antiquities, *100 Treasures in Florence* offers an overview of important medieval monuments, Renaissance paintings and sculptures as well as lesser-known neoclassical, impressionist, futurist and postmodern works in Florence.

"This course was a bold and successful idea to curate 100 items from the vast array of artistic treasures in Florence. I enjoyed visiting and discussing some old favorites well as discovering many new ones. It was also fun to meet and socialize with other art enthusiasts and Florence-philes."
